- i can maintain good rapo and communication skills with my team members and user

Projects

ShopRags Online

In order to reduce queues in shopping malls we will provide a barcode scanner after scanning the barcode the item will be displayed on the screen and we will provide a cart to them and then they can remove the magnetic tag removal to everyone one while entering after and to cart after scanning at last the you can pay with any upi, debit cards or credit cards ,bank transfer. At last they have submit the tag which are attached to items the count and tags must be tally then they allowed to send out
